

Department: Electronics and Telecommunication

Parent teacher meeting 04 September 2021

Minuets of meeting

Online parent teacher meeting of SE, TE, BE E&TC and Electronics students was organized by the Electronics and Telecommunication department through **Zoom platform**.

Date: 4/9/2021

Time: 11.00 am to 12.30pm

Attendees: 206 participants attended meeting

Following faculty members attended meeting

- Dr. D. M. Chandwadkar, Head of department
- Dr. S. A. Patil(Ugale) Academic co-coordinator
- All faculty members of E&TC department
- Parents of SE, TE BE E&TC and Electronics students.

Points discussed:

1. Meeting started with a welcome speech given by Dr. D. M. Chandwadkar, H.O.D E&TC, Electronics. He talked about the achievement of the institute as the only institute in SPPU, Pune sanctioned with AICTE IDEA lab. He also mentioned K. K. Wagh is the only institute in Nashik to be grouped four times under platinum category by AICTE CII survey.
2. Dr. S. A. Patil (Ugale) Academic Coordinator of the department started her presentation with Vision and Mission of the department. She also talked about the current situation in online teaching learning, platforms available and challenges in front of students and staff for online teaching learning. She explained initiatives taken by the department to solve those problems like mentor meetings, online meetings with students, Google survey regarding online teaching taken from students, skill development program for SC ST candidate students(SPDC), placement guidance, online courses like Udemy , NPTEL Coursera etc.
3. Dr. S. A. Patil (Ugale) also explained about efforts taken by all staff members for progress of students like
 1. Preparing course handout including detail planning of every lecture and innovative teaching learning practices to be conducted for each subject
 2. Internship, Industrial training done by students

3. Activities conducted for improving placement count and Facilitation of placed students organised by T&P section of department
 4. Different activities planned and conducted by Entrepreneur Development cell, Astro club
 5. Virtual industrial visits
 6. Rosseta stone platform : for language training
 7. Audience response system : Lernico
 8. NPTEL courses and Audit course conducted for students
 9. Meditation/Yoga/Immunity Building sessions organized for students
 10. New initiatives from Pune University to earn additional 20 credits from MAJOR Honors Degree.
4. Dr. S. A. Patil (Ugale) congratulated toppers of all classes for scoring good marks. While talking about achievements of students she congratulated Ms. Divya Gupta, Ms. Shreyani Jawade, Ms. Pooja Hiremath for publishing research paper on topic "Implementation of an Efficient SMD Component Counter using LASER Sensor" in International Journal for Research in Applied Science & Engineering Technology (IJRASET). Madam also congratulated the placed students while talking about placement.
 5. Dr. D. M. Chandwadkar talked about what is the next activity planning of the department for fulfillment of students like induction program, training and placement activities etc.
 6. Dr. D. MChandwadkar appeal to parents to pay fees of their ward if it is pending
7. During a question answer session query raised by a parent , can we pay fees in installments?

While answering Dr. Chandwadkar said yes there is facility provided for fee installments, students have to take permission from principal sir and accordingly he has to pay fees.

Parents appreciated and thankful for efforts taken by department for online teaching learning

6. Meeting ended with thanking speech given by S.V. Shelke Parents meeting coordinator E&TC department.

[†]Student, *Professor, Department of Electronics & Telecommunication Engineering, K.K. Wagh Institute of Engineering Education & Research, Nashik, India

Abstract: Bulk parts such as IC components, SMD components, packaged in reel type, are plenty of use in the SMT industry. Application of these components in the production of electronic products is increasing day by day. It is difficult to count the right number of required components. If the components delivered are less than required components then it may damage the production process. In this paper, we propose a system which can count the required number of components in a very short period of time. To overcome this problem the precise counting device is required to build. Which will count the SMD components and display the count on the screen. This system will be used in the production of electronic products. The proposed system will be compact model as required for the industrial application which will save space and transportation cost. This project modify the existing system of component counting. The proposed system will be more accurate and faster. The output of the system will be displayed to the operator. It makes a perfect step measurement stage over eliminating its lengthy rework.

Keywords: SMD Components, SMD Counter, LASER sensor, Surface Mount Technology, Surface Mount Device, SMD Counter
